NECESSARY IMPROVEMENTS.

Last Notice to Delinquent Ratepayers—Firemen's Demands Acceded To.

The Mayor and Councillors Healey, Hannah and Wellington were in their places on Monday evening when the Council was opened, and later Councillors Grayson and Wilson dropped in.

Mr. H. McDougall, treasurer, submitted his monthly statement; A. A. Andrews had a communication before the Council re supplies ordered by Clerk for fire department; communication from fire brigade; A. M. Fenwick re refund for use of town hall for school entertainment; statement of account of town with W. W. Bole for supplies and medicine furnished the needy; W. J. Nelson re assessment of hockey and skating rink; petition from residents of west-side High St. asking for sidewalk.

The Board of Works Committee (Wm. Hannah, chairman) recommended that the public improvements, for which Debentures have been issued, be continued and completed as follows: River St., east, north side, 500 feet brick walk between 11th and 12th Ave., estimated cost \$190. High St., west, south side, 500 feet plank walk, 4 ft. wide, estimated cost \$135. Manitoba St., east, one culvert crossing at 11th Ave., estimated cost \$45. High St., east, from school property to 11th Ave., 325 feet plank walk, 4 ft. wide, estimated cost \$75. High St., west, one culvert 60 feet at crossing of 9th Ave., estimated cost \$80.00. Moving and changing covering on Manitoba St. bridge, to change wheel rut, estimated cost \$15. Ventilating town hall on improved sanitary principle. Raising, levelling and repairing sidewalk on High St., west south side, from Main St. to stable of Wilson & McDonald, estimated cost \$10.

A plan was submitted, also from Board of Works, re sleeping apartments for fire brigade in the fire hall. According to the specifications accompanying this plan there are to be 600 large room for sitting and reading, and two bedrooms with sleeping accommodation for six men. The rooms to be got ready immediately.

Hannah—Wilson—That the report be adopted. Carried.

The estimate of Board of Works re town hall ventilation was referred back to committee for further explanation.

The Board of Works Com. was authorized to have the re-planking of Manitoba St. Bridge and raising sidewalk on High St., west of Main St., done immediately, according to report.

Wellington—Wilson—That clauses 1, 2, 3, 4 and 5 in B. of W. report be laid over till July 15, 1896. Carried.

It was ordered that the Clerk acknowledge receipt of communication from the fire brigade.

It was also ordered that the chairman of the F. W. & Light Committee be instructed to have fire engine properly cleaned before handing over to the fire brigade.

Ordered that a refund of \$5.00 be granted Mr. A. M. Fenwick, amount paid by him for use of town hall for concert given by school children for benefit of school.

Grayson—Wellington—That the Treasurer have the coupons now in possession of Confederation Life returned and pay the fee of 50 cents. Carried.

Mr. Alex. Fletcher appeared before the Council re electric light, offering to again furnish the town with light at the old rate. The general expression of the Council was in favor of again adopting the light providing a permanent service were guaranteed.

The chairman of Board of Works was authorized to advertise for tenders for cleaning, pointing and kalsomining town hall and clerk's office, and also for ventilating hall on a scientific plan.

The treasurer was instructed to notify by circular all non-resident ratepayers, who are in arrears, that their lands will be sold by tax sale unless their taxes are paid forthwith.

Statute Labor and Fire District Proclaimed.

The North West Territories Gazette of the 16th inst. states that the several conditions of the Statute Labor and Fire Districts Ordinance having been complied with, His Honor the Lieut. Governor-in-Council has been pleased to erect and form, on and from the above mentioned date, the undermentioned tract of land, into a Statute Labor and Fire District under the provisions of the said Ordinance; Township 53 in Range 25, West of 5th meridian. Israel Umbach has been appointed returning officer for the purpose of holding the first election for overseer of the district.

NOXIOUS WEEDS.

Committee Meet—Our Member Requested to have an Inspector Appointed.

The movement to meet the question of destroying noxious weeds in the district is now receiving the attention it deserves and being put into definite form. The committee appointed at a public meeting held in the town hall, on the 14th ult., met in the town hall on the 25th at 2 p.m. Present: Messrs. Gilmour, Green, Rathwell, Getty, Dalgarno and Secretary H. McDougall.

Moved by S. K. Rathwell, seconded by A. Dalgarno, that Jas. J. Ross, Esq., M.L.A., be asked to appoint a noxious weeds inspector for this district with limited powers, whose duty will be: 1st.—To compel all farmers to keep noxious weeds from seeding on their summer fallow. 2nd.—That when any settler is found to have noxious weeds growing on any land owned or occupied by him, to any extent, yet within control to destroy, that he be compelled to do so. Carried.

Moved by S. K. Rathwell, seconded by R. Green, that all expenses incurred in connection with this work be borne by the district out of the funds under the control of our representative in the Assembly. Carried.

Moved by A. Dalgarno, seconded by J. Getty, that an immediate appointment of inspector be asked; and in order to deal more effectively with the weeds question, the co-operation of the following parties is solicited:—Jas. Fowler, A. Ross, Jas. Baynes, Jas. Smith, R. Jones, Geo. Might, C. Rigdon, J. Thompson, N. Alcock, J. Buchanan, Thos. Baynes, Joseph Young, E. N. Hopkins, W. C. Sanders, A. McEwen, J. G. Beesley, J. Smale, Jas. Franks, Jas. Campbell, G. Getty, Wm. Brown, R. McCride, C. Campbell, Chas. Hewlett, E. Crop, J. Astleford.

The next meeting of the committee is not announced, but is subject to the call of the chairman, Mr. H. C. Gilmour.

Maple Creek.

Mr. Moore wife has presented him with a pair of pigeons, good for hay creek.

Our school has been closed owing to the amount of sickness in our midst.

Mr. Ozhardt has sent in 400 horses to be shipped east.

Mr. J. Cornell has gone to Prince Albert with two hundred head of horses.

The Odd Fellows were paraded to church with the brass band escorting them on Sunday last.

Considerable improvements are being made in Maple Creek. A long felt want in the shape of a side walk is being laid. \$500 are being expended this season.

Miss Dunn is at present assisting Miss Abbott in the dining room of the International hotel.

Messrs. Wallace & Handers shipped horses to the Winnipeg Market last week.

ASTH-HYPOCRITE.

Stony Beach.

Quite a number of our farmers have commenced seeding.

The Valley Robin is still searching for his mate.

Peter Fletcher starts shortly down the line with a bunch of horses.

Miss Dove has gone to Moose Jaw for the summer.

The proprietor of the "Model" farm has got a new pair of eye glasses. He says the girls cannot wink at him now, unnoticed.

Mr. John Fenwick is in poor health. Rheumatism seems to be the trouble.

The Patron's of Industry held their regular meeting on Saturday, and a good deal of business was transacted. It was decided to hold their annual picnic on Wednesday, June 3rd. All are cordially invited to attend. The location of the grounds is about 5 miles east of the old picnic grounds. It is a much better spot.

Rank.

Bassett April 27.—Bassett will soon have commenced another season, which promises to be one of the best it has ever experienced. Our "sports" are busy and up with the times. Already there has been a football club organized, under the auspices of the "Rocky Mountain Lions" and judging from the amount of brass and music which they display we should say the name is not inappropriate. Nor are our 'cyclists behind hand, and from present appearances the wheel club will have a large increase in membership. Among those who have already taken the club are Messrs. Farnock, Capt. Harper, R. E. Campbell, A. Saddington and J. H. Denlop. There is also going to be a tennis club formed to which Mrs. Dr. Breit has kindly given the use of her beautiful tennis lawn.

The C.P.R. hotel opens on May 12th, and its managers are looking forward to the most prosperous season that they have ever had. Mr. Frank Beattie is also operating up the National Park hotel, so that tourists visiting our town this season will have ample accommodation of the best kind. Nearly all the snow has gone from the valleys but a great deal still remains on the mountains and snowdrifts have been but few as yet.

A CONSERVATIVE RALLY.

New Association Rooms Formally Opened—Mr. Davin Present.

A large and representative meeting of Conservatives was held in the Aberdeen Block on Wednesday evening, at which the new rooms of the Conservative Association were formally opened. Mr. N. F. Davin was present and addressed the meeting at considerable length. Mr. Davin set forth the position of the Government generally, and his own position particularly, on the Remedial Bill. He expressed the conviction that in the coming campaign issues of gravest import would be forgotten and attempts would be made to inflame the minds of many by arguments calculated to awaken religious prejudices. The speaker expressed his satisfaction that Sir Chas. Tupper was now Premier. On Sir John Macdonald's death, he said, he had advocated sending for Sir Charles. On the death of Sir John Abbott he had done likewise. When Parliament met its third Premier he again urged the matter. He pointed out that Sir Charles being the foremost politician of the time was entitled to the position. One of Canada's distinguished sons, he had given his years of vigorous manhood to her service and his accession now to the highest position in Parliament augured well for the prosperity of her people.

Several local speakers followed Mr. Davin. Mr. T. B. Baker, president of the Central Association of Western Assinibois, called attention to a statement recently made in the Regina Leader in a communication signed "An Old Time Conservative."

The following resolution was adopted: That whereas the following statement appears in a communication in a recent issue of the Regina Leader purporting to be made at a political meeting by Chas. Braithwaite, viz., "What do you think of a Government, who, to retain their power and increase their majority on the second reading of the Remedial Bill brought influence to bear upon Mr. Davin by communicating with the Conservative leaders of his constituency urging them to draft a petition and have it numerously signed and forward the same to Mr. Davin urging him to vote with the government on the second reading of the Remedial Bill" and that this utterance is endorsed by the editor of The Leader. This Association emphatically states that the government has not directly or indirectly solicited any action by the Conservatives of Moose Jaw to influence the vote of its representative on the Remedial Bill. And further that the editorial foot note beneath the aforesaid communication states what is wholly foundationless and untrue, as far as the Conservatives of this district are concerned.

The following resolution of confidence was carried unanimously: "That this Association endorses the policy of the Conservative party in the House of Commons and declares its continued allegiance and loyalty to that party. It cordially accepts the explanation of Mr. Davin's course in Parliament and pledges its support to him as its candidate."

Suddenly Called Away.

On Friday, the 24th inst., there occurred in Moose Jaw a very sudden death, in the person of Mr. Jas. McLean, of Swift Current. Mr. McLean was for some years section foreman at Maclean Station, was then transferred to Moose Jaw, and about twelve months ago to Swift Current, where he remained in charge until about six weeks ago when he became too ill to work and went to the Medicine Hat Hospital; but the change not seeming to do any good he determined to come to Moose Jaw, where he had daughters and friends.

On Friday morning of last week he determined to walk over to the home of an old friend, Mr. Wilson, in the east end of the town, and pay him a visit. He did so, and after remaining a short time he took a fainting spell and passed away before anyone could be sent for. The cause of his death was heart disease, though Bright's disease was what caused his late illness. He was highly respected wherever he was known and leaves a wife and family of seven to mourn the loss of a fond husband and a kind father. The Moose Jaw Orange Lodge, of which the departed was an active member, took charge of the remains and conducted the funeral.

All seats free and everybody invited and welcome.

OVER THE WIRES.

Hugh J. Macdonald to Run for Winnipeg—Mr. Daly to go on the Bench.

Cabinet reconstruction will be the first consideration of the government now that the session is over. There will be a number of changes in the Ministry. Amongst these mentioned are Hugh John Macdonald, Minister of the Interior, Mr. Pelletier, Secretary of State, Mr. Kirkpatrick, Minister of Militia. The rumor that Hon. Mr. Daly is to be appointed to the bench is revived. It is said that Judge Killam will be appointed a commissioner to revise the statutes, and will ultimately be elevated to the supreme court bench.

Mr. Hugh J. Macdonald on Friday authorized the statement that he had finally consented, if selected at the convention, to be Conservative candidate for Winnipeg.

Mr. Macdonald added: "My personal inclinations as to politics have not altered, but to-day I find the position of affairs entirely changed."

"The entry of Sir Charles Tupper with his well-known views of aiding Manitoba and North-West development alters the situation."

"Under Sir Charles I think I may be of material assistance to Winnipeg and the province. Hence I have given my consent."

The proclamation dissolving parliament was issued on Friday morning. The dates of nomination and polling are the same as previously announced, June 16th and 23rd. The new parliament is called to meet for dispatch of business July 16th. Although Premier Bowell is still in harness, Sir Chas. Tupper is engaged in the work of cabinet reconstruction. This morning he had conference with Mr. Oimmet. There seems to be a hitch about Chapeau coming in. The latter is in New Jersey. He has been communicated with frequently this week, but no answer has been received from him. A trusted emissary is likely to leave for Atlantic City to find him to-morrow.

Mr. McCarthy's manifesto to the electors of North Simcoe is out to-day, and abounds in such sentiments as this: "On the answer which will be given at the polls to the demand of the French Canadian hierarchy to have Manitoba coerced and separate schools re-established in that young and vigorous province depends not merely on the Mackenzie-Bowell Tupper administration, but in a large measure the peace and well-being of the future of Canada, and again, to me it seems unstatesmanlike as it is unpatriotic for the sake of a temporary peace with our French-Canadian fellow subjects to foster a spirit of French nationalism."

The candidates for Alberta at the Dominion elections are not yet definitely known, but so far Messrs. Oliver, Liberal; Davis, Government, and Cochrane, Conservative, have announced that they are in the field to stay. Mr. Thos. Stone, Conservative, will go to the Convention to be held in May and if he should get the nomination, of which there is strong probability, will be a strong candidate.

It is announced that the Reformers and Patrons of North Ontario have agreed to unite their forces. Dr. Bingham, Liberal, and Brandon, Patron, have engaged to retire in favor of a nominee of a joint convention of Reformers and Patrons to be held at Beaverton. Duncan Graham, reeve

of Mara, and warden of Ontario county, will probably be the choice of the convention.

The World has a front page, double loaded editorial discussing the Remedial Bill and the position of the respective provinces towards it. It says the issue is not an issue of parties, but an issue of provinces. The Conservative party has never been pledged to the question. The Liberal party is unpledged, but the province of Quebec, as a province, will insist on members, whether Liberal or Conservative, that they be pledged in favor of this question at the forthcoming elections. Why should not other provinces that object to the coercion of the western country, also pledge members, whether Liberal or Conservative against the Bill? It is the only way of defeating it. If the people of Canada send a majority to the new parliament pledged to the Remedial Bill, separate schools will be enforced in Manitoba within thirty days.

The Toronto World of Friday morning says Sir Oliver Mowat will not give a definite reply to Mr. Laurier's invitation to join him in Dominion politics till Wednesday next, though the question was discussed at length in yesterday's council meeting. In the event of his accepting, says the World, according to Mr. Laurier's proposal, Sir Oliver Mowat will resign the premiership and throw the weight of his influence into the Dominion campaign. Then if the Liberals succeed to power, Sir Oliver will be called to the Senate and take a portfolio in Mr. Laurier's cabinet.

Hon. G. W. Ross has also been invited to Ottawa, but has not yet decided whether he will go or not. If Sir Oliver accepts Mr. Laurier's offer Mr. Ross will not, but if Sir Oliver does not Mr. Ross probably will.

If Sir Oliver leaves Ontario politics Mr. Hardy will become premier and attorney general. No matter what decision is arrived at, Sir Oliver, Mr. Ross and other Ontario cabinet ministers will actively assist the Liberals in the pending contest.—Press.

Does the Farm Garden Pay?

That depends on the management. It is precisely the same as it is with the farm as a whole. It is doubted by some and lately asserted by others that farming itself does not pay. Both positions are true in regard to the management when in certain hands. The question should properly be, "Can it be made to pay?" When put in that shape I boldly assert that it can. A farmer of my acquaintance who is not by any means an extraordinary man, and who keeps an exact account of expenses and returns, tells me that his farm never fails to pay him. Some years are better than others, but last season, which is the worst he has ever known with its low prices, drought and insect troubles, his farm paid a net profit of a little over six per cent. on the \$9,000 invested in its 130 acres and plant. \$600 worth of produce was sold, off the place, mostly in the shape of live stock, for he makes all his crops walk to market. Besides what was sold there were house rent, food, clothing, and most of the family supplies obtained from the farm. If a more careful record were kept, and fair allowance made for income from all sources, many would be surprised to find that their business is paying them better than they suppose. It is just as true that with good management a garden will pay, as it is that the same statement is true about farming. There are many garden products which are in fairly good demand in local markets, and in the neighborhood of towns and cities much may profitably be done in certain kinds of vegetables, and all kinds of small fruits if farmers near by are only sharp enough to take advantage of their opportunities. Nearly all the small fruits that come to Guelph, where I live, are jostled and rattled over 30 or 40 miles of macadamized roads or brought much farther by rail, and there is not, so far as I am aware, a single acre of small fruits anywhere in the neighborhood except at the Agricultural Colleges.—Farm and Field.

Entertainment by Pupils.

An excellent entertainment by pupils of entrance and High School departments of the Moose Jaw Union Schools, was given in the town hall on Friday evening last, the room was crowded and there was netted a goodly sum in aid of the school fixtures and library. The first item on the programme was a piano-forte duet, "The Spanish March," which was rendered by the Misses M. Rollo and B. Baker, with great care and precision, the correct time showing that there had been attention and practice.

Miss Gertrude Shepley gave a recitation, "Lascia," in splendid style, fully emphasizing the pathos and tragedy of the incident recited.

Little Hattie Kent played, "The Belle of the Rink," in a capital manner. This young lady has delicate touch and plays with taste and grace. Her performance was loudly cheered, indeed an encore was demanded, which however, was not acknowledged.

Master Nelson Brown's recitation, "The Last Scotch Cavalier," was well

given as was also a graphic description by Miss Nellie Haigh of an incident in the early history of Canada, viz., the heroic act of Madeleine de Vercheres.

A chorus from the Intermediate and High School Departments also contributed to the success of the concert. The principal attraction of the evening, however, was the acting of two scenes from the Merchant of Venice. These were well put on the stage in every respect, fully justifying the remark of the chairman, Mr. T. B. Baker, that he had seen it worse performed by live actors. Jas. Simington, as "Shylock," was capital; he did not miss a single point in the grim humor of the rapacious old Jew; while Miss Jennie Haigh, both looked and acted Portia to perfection. Her rendering of the celebrated description of mercy left nothing to be desired. H. U. Morrison, as Antonio, and Wm. Munns, as Bassanio, were good through rather tame, a remark, however, that does not apply to the humorously brusque Gratiano of W. McWilliams. J. H. Wilcox, made an excellent Duke and the minor parts allotted to Harry Neeland and Lizzie Herrier were conscientiously performed. The audience frequently discovered its appreciation of the entertainment by loud applause, and indeed the whole affair was very worthy. Great credit is due to those who arranged and managed the proceedings. There was not a hitch from beginning to end, and there were none of those tedious "waits," which so often annoy an audience.

You Don't Have to Swear Off

says the St. Louis Journal of Agriculture in an editorial about No-To-Bac, the famous tobacco habit cure. "We know of many cases cured by No-To-Bac, one a prominent St. Louis architect, smoked and chewed for twenty years; two boxes cured him so that even the smell of tobacco makes him sick." No-To-Bac sold and guaranteed by W. W. Bole no cure no pay. Book free. Sterling Remedy Co., 374 St. Paul St., Montreal.

Carmel.

CARMEL, April 23.—We learn that one of our prominent blacksmiths of Moose Jaw has converted himself into a school inspector. On Thursday last he paid Point Elma school a flying visit. He reports favorable of Miss Green. He purposed returning home the same day, but owing to the heavy fall of snow he was compelled to remain longer and had to leave his vehicle behind when he did take his departure.

Owing to the snow drifts in the ravine on Sunday last our minister was unable to reach this appointment. We all think it was owing to the load which he carried.

Mr. Gray has purchased a team of horses. He says they are not very pretty but they have youth on their side.

Mr. J. G. Hayne has a fine team of greys. Mr. Wm. Glover has returned home from the Irish colony. He says everything is peace and quietness since the last reading of the riot act. He says that that place has been in rather an unsettled condition but there hasn't been a row since the last one.

C. C. purposes picking Currants this summer, that are if there is any. We hope they will be a good crop.

Visitors: Mr. C. Briggs, of Qu'Appelle Valley; Thos. Falconer and Arthur Beesley Marlborough.

Buffalo Lake.

BUFFALO LAKE, April 25.—The Buffalo Lake Baseball and Football Club held their annual meeting on Tuesday, 21st inst. J. P. Fowler was elected President, G. N. Tuxford Sec'y-Treas., R. McCartney Captain of Baseball, G. S. Tuxford Captain of Football. The following gentlemen were elected honorary members: J. H. Ross, M. L. A. A. Hitchcock, A. R. Turnbull, C. A. Gass. It was agreed to amalgamate the baseball club and football club into one and to practice every Friday evening at 6 p.m., sharp. It was also agreed that 50 cents would be charged for subscription for this year.

There was a blizzard on April 18th, which will make the spring late. It is very unusual to see a storm of such magnitude so late in the season, but everything comes for the best.

Mr. Allan Tuxford has got a fine yoke of oxen. He intends to try it another year. You're the stuff; stay right with it.

Mr. Robt. McCartney, Sen., has now got a house on his homestead. He drew it from Frank Armstrong's place, before the snow storm.

Mr. Watts, who visited in this district for one and a half years, is I am sorry to say, not going to return. He got more lucrative employment on the old sod.

Mr. Hugh Gilmour was fortunate in disposing of a horse at a good figure not long ago.

John Carby has been making himself famous through the columns of The Leader. What's bothering you now, John?

I was surprised not to see more Buffalo Lakeites at the christy minstrel show. They would have enjoyed it, but they will have another chance on May 1st.

Bert Holdsworth, of Moose Jaw, was visiting Mr. R. McCartney, Sen., a few days ago.

Mr. Bob McCartney is getting on all right now. We will soon have the pleasure of seeing him around again, and I hope his leg will be as strong as ever, and that he will be able to pitch as good a ball for us as he did last year.

I hear that Mr. R. McCarthy is laid up with an attack of quinsy. I hope it is not serious.

Buffalo Lake lodge, P. of L. No. 211, held their regular meeting on Friday, 24th inst., at the residence of Mr. Hugh Gilmour, Bro. Jas. Fowler in the chair.

We had a fine thunderstorm the other night, followed by quite a heavy rain. As a result the snow was all gone in the morning. What a blessing!

PATENTS

CAVEATS, TRADE MARKS, COPYRIGHTS.

CAN I OBTAIN A PATENT? For a full and complete explanation, write to MUNN & CO., who have had nearly fifty years' experience in the patent business. Communications strictly confidential. A Handbook of Information concerning Patents and how to obtain them sent free. Also a catalogue of mechanical and scientific books sent free.

Patents taken through MUNN & CO. receive special notice in the Scientific American, and are promptly and thoroughly examined by the public without cost to the inventor. This splendid paper, the largest circulation of any scientific work in the world, is a year. Sample copies sent free. Additions, monthly, \$2.00 a year. Single copies, 25 cents. Every number contains beautiful plates, in colors, and photographs of new houses, with plans, enabling builders to show the latest, designed secure contracts. Address MUNN & CO., NEW YORK, 361 BROADWAY.

ONE THING IS CERTAIN PAIN-KILLER KILLS PAIN

PAIN-KILLER

THE GREAT Family Medicine of the Age.

Taken Internally, It Cures Diarrhoea, Cramp, and Pain in the Stomach, Sore Throat, Sudden Colds, Coughs, etc., etc.

Used Externally, It Cures Cuts, Bruises, Burns, Scalds, Sprains, Toothache, Pain in the Face, Neuralgia, Rheumatism, Frosted Feet.

No article ever attained to such unbounded popularity.—Salem Observer.
We can bear testimony to the efficacy of the Pain-Killer. We have seen its magic effects in soothing the aching pain, and know it to be a good article.—Occident Dispatch.
Nothing has yet surpassed the Pain-Killer, which is the most valuable family medicine now in use.—Trenton Times.
It has real merit; as a means of removing pain, no medicine has acquired such a reputation as PAIN-KILLER.—Newport News.
Review of medicine.—They only the genuine "PAIN-KILLER." Sold everywhere; large bottles, 25c.

Look for this Print in the Snow

It is the pattern of the heel of the Granby Rubber and Overshoe. The next time you buy a pair of rubbers or overshoes ask for Granby's and look for this pattern on the heel. There is no need to take a Granby that is not the same shape as your boot, because they are made to fit every shape of shoe. A rubber that does not fit the boot will draw the foot. Granby Rubbers are thin, light, elastic and fit perfectly. They wear like iron.

A Mother's Beautiful Child

Dragged Nearly to Death's Door by Severe Nervous Disease—Suffered Extreme Pain in the Head—Doctors Could Do Nothing—South American Nervine Called in at the Eleventh Hour and Restores to Health Little Annie Joy, of West Toronto Junction—The Great Remedy is Reducing the Death Rate of All Canadian Cities.

A bright little lad, or golden-haired girl, is the delight of your home. Whether you revel in riches, or know something of the privations of poverty, that child is all the world to you. It is no wonder that mother and father become anxious when sickness overtakes the little one. The remedy, fathers and mothers, is near by. South American Nervine has been the means of giving back the bloom of youth to thousands of suffering little ones. It is not a medicine that buoys up the parents' hopes, only to have them in a short time dashed down again lower than ever. Whether with child or adult, it promptly gets at the seat of all disease, which is the nerve centres. From this fact it is peculiarly efficacious in the treatment of nervous diseases of man, woman or child.

A recent case is that as told by Mrs. M. A. Joy, of West Toronto Junction, whose little daughter Annie, aged 15 years, had been a sufferer from severe nervous depression for about two years. As with all mothers, no trouble and expense was spared in the effort to bring relief to the child. The little one suffered extreme pains in the head, so distressing at times as to render her completely helpless, sapping all her strength. The best skill of the most skilled physicians was called into request, but little Annie steadily grew worse. Becoming more hopeless and discouraged as the weeks went by, Mrs. Joy decided on trying South American Nervine as almost a last resort. Employing her own words she said: "I determined to give it a trial, although I felt it was useless."

To-day it is all happiness around that home, for before one bottle of the medicine had been taken, the mother tells us Annie commenced to show decided signs of improvement. The child has taken three bottles and has practically regained her natural health and vigor. There is nothing surprising in the fact that Mrs. Joy cannot speak too highly of South American Nervine.

Much was at stake, but this wonderful discovery proved equal to the emergency, and so it does in every case. Thousands of letters on file from well-known citizens prove this. For nervous diseases of young or old, from whatever cause, it is an absolutely infallible cure.

For Sale by W. W. BOLE, Moose Jaw, N.W.T.

GUARANTEED.

Every Pound of

Blue Stone

We sell this spring is guaranteed "pure and unadulterated and well fitted for the dressing of seed wheat."

These are the words of Prof. Kenrick, official Government Analyst, Winnipeg, who made an exhaustive analysis of a sample of this Bluestone. We sell it at 6 cents a pound and pure Bluestone cannot be sold for less and admit the semblance of a fair profit.

The Moose Jaw Times.

FRIDAY, MAY 1, 1896.

LOCAL AND GENERAL NEWS.

Dalton McCarthy has issued a manifesto.

Read letter from Mr. Wm. Watson re creameries.

Interesting budget of news from Banff this week.

It is now positive that Mr. Laurier will be the Liberal candidate in Saskatchewan.

WANTED.—Good girl. Highest wages will be paid. Apply to Mrs. A. WILCOX.

J. H. Ashdowne has been chosen, unanimously, to represent Marquette in the forthcoming elections.

A magnificent demonstration was given in honor of Mr. Laurier in Bohmer Park, Montreal, April 24th.

Mr. Alexander, of the Medical College, left for Moose Jaw last evening to join a survey party.—Nor. Wester.

Mr. Kellawa, representing an eastern retail firm has been all week soliciting orders for groceries; but with rather poor success, we understand.

A letter from a young Moose Jaw farmer showing the contrary side of the Statute Labor question is, through coming late, crowded out this week.

Mr. Morehouse, operator of the Moose Jaw creamery, arrived on Tuesday morning from the east to conduct the creamery for the coming season.

Hugh John Macdonald has stated definitely that he will be the Conservative candidate for Winnipeg. Mr. Joseph Martin has also decided to contest the constituency.

Messrs. Jos. and Wm. Hughes, ranchers from the Dirt Hills, are spending a few days in Moose Jaw purchasing supplies, etc. They report grass around the "pottery clay" hill, three inches long and sheep, cattle and horses putting on flesh rapidly.

The C. P. R. express which left Winnipeg Sunday last was ditched two miles east of Neipigon by running into a washout. The engineer Dan McNeill was killed. Hugh John Macdonald was aboard going to Ottawa, it is supposed to be sworn in as Minister of the Interior. He was not hurt.

On Monday afternoon at the race track an exciting foot race took place between two local sprinters, viz., "Santa Fee Jack," whose colors were purple, and "Baldy," whose color was red. The race was a mile dash and proved exciting, especially at the finish when Baldy passed under the wire, a winner, with head down and banner floating in the breeze.

Supt. Goggin is expected for institute work among the teachers of the Moose Jaw Association in about two weeks. It is probable that an evening session will be held, at which he will give one of his lectures. Those who heard his "Arnold of Rugby" last year will welcome his annual visit with pleasure. Mr. Goggin is creating a name for himself as an inspiring and entertaining lecturer.

Registered at the Dining Hall this week were the following:—W. G. Rickert, Montreal; A. L. Patourel, Vancouver; Fred. H. Stewart, F. T. Shorley, D. J. Mason, A. L. Daly, J. Drecher, Winnipeg; P. Ross, R. Stewart, Hamilton; J. Mitchell, Kingston; L. Kennedy, Galt; J. H. Brondfort, Seaforth; F. S. Coomb, Kincardine; H. Y. Farron, Calgary; N. McLeod, Toronto; Dr. P. F. Siz, Mr. and Mrs. N. F. Davin, Regina; V. G. D. Brien, Portage la Prairie; R. Hewitt, Estevan.

Bachelor—You fell in love at sight, didn't you? Henpecked Husband—Yes; but I didn't know my wife at all then.

Mrs. Crimmonbeak—What a splendid cook my mother was! Such pie! Mr. Crimmonbeak—Too bad it wasn't hereditary.

Mr. and Mrs. N. F. Davin spent Wednesday and part of Thursday in town. They arrived in Regina from Ottawa on Tuesday morning.

English church service will be held at Barley's, the residence of J. L. O. de la Haye, Esq., on Sunday, May 10th, at 3 o'clock. A meeting of the congregation will be held afterwards.

Mr. John Norquay, the ever alert and obliging clerk at the C.P.R. Dining Hall, Moose Jaw, has severed his connection with the hotel and gone to Minneapolis. Jack's familiar smile will be missed.

It is stated that Lord Salisbury will shortly retire from the Premiership of Great Britain, to be succeeded by Mr. Arthur Balfour, and Mr. Joseph Chamberlain will become leader of the House of Commons.

Mr. F. H. Stewart, representing the R. G. Dunn Co., mercantile agency, Winnipeg branch, is now on his annual trip through the country rating business firms. He spent Friday and Saturday in Moose Jaw.

Mrs. McLean, widow of the late Mr. Jas. McLean, wishes through THE TIMES to thank the kind people of Moose Jaw who turned in and helped to take care of the remains and also to thank the Orange Lodge which conducted the funeral.

All who are interested in forming a lacrosse club are invited to attend a meeting at R. L. Slater's store to-night. Admirers of Canada's national game are requested to attend as well as players. Organization and election of officers will take place.

The Rev. Wm. Watson will celebrate the Holy Communion at the church of St. John the Evangelist, English Village, Qu'Appelle Valley on Rogation Sunday, May 10th, at 10:30. A meeting for the election of wardens, &c., will take place immediately afterwards.

A new class will be formed in the Junior Primary Department of the school next week. Parents who desire their children to commence school before the summer holidays will please send them Monday morning. This is the last opportunity for the enrollment of those who have never before attended school.

Mr. R. A. McCall, who has been for a considerable time head clerk of Mayor Bogue's general store, leaves on Wednesday next for the Pacific coast. Mr. McCall will be greatly missed in Moose Jaw, having made, while here, a host of friends. Owing to his musical talent and generosity he was most generally called on to contribute to the programme of entertainments; and also as a society man he was very popular.

Senator Perley Answered.

To the Editor of THE TIMES.

Sir,—In the *Farmers' Advocate*, of April 6th, page 131, in an article entitled "Dairying in the North-West," is given a very good synopsis of the creamery scheme which I introduced at twenty-three meetings, extending from Moosomin in the east to Prince Albert in the north, and from Regina westward to Calgary, and thence north and south to Edmonton and Fort Macleod. At all the meetings it was discussed and thrashed out for hours and it survived the ordeal and emerged word for word as first introduced at Ft. Qu'Appelle, without any change or amendment whatever. There are two or three clauses omitted in the synopsis, one of which is of sufficient importance to warrant one in asking you to insert it in your excellent and widely-read paper. By the synopsis only \$20,000 of the \$30,000 is accounted for. The remaining \$10,000 is disposed of as follows: "That the remaining \$10,000 shall be expended in assisting existing creameries and factories on an equitable basis, according to their wants, and the extent of work they are performing; provided they come under Government inspection and bring their buildings and equipments up to the Government standard."

From this clause you will see, Mr. Editor, that those creameries and factories already in existence in the Territories, numbering nine creameries and ten factories, and struggling along under difficulties, will be aided as well as the new creameries. There will be thus nineteen creameries and ten factories within three years in operation in the Territories—quite sufficient for present needs under the new system which the Creamery Scheme formulates, viz., to have Government aided and inspected creameries say 100 to 150 miles apart where railroad communication exists, and 50 miles apart in settlements without the reach of railroads. Of course, there can be no hard or fast rule as to distances, only thus far, that the old system of having creameries erected in the different small villages in close proximity, say ten miles apart, will, under the new system which I propose, be utterly discarded. Amongst others there are two important reasons. The first is that throughout Manitoba, Ontario and Quebec, without going farther away, the small creameries and factories have proved a great hindrance to success, both from the quality of the product, which is generally inferior, not up to first class goods, and the consequent smaller price obtained, resulting in less profit to the patrons and a proportionately higher cost for running expenses. Drastic measures are suggested and advocated in Quebec and Ontario to get rid of the small creameries and factories. And if the small creamery is felt to be such a hindrance in the east, where population is comparatively numerous, how much greater an evil must it prove in the North-West where settlement is so very sparse. But the old stage "The proof of the pudding is in the eating." In Moose Jaw we drew cream over fifty miles for two seasons and for part of last season two hundred miles by rail. We drew milk about eight miles and cream by spring rig twenty-five to thirty miles, the milk daily and the cream twice a week. A small portion of the milk hauled was returned unfit, but not one gallon of cream was returned either by rail or spring rig. A large proportion of the milk returned after being separated at the creamery was sour before it reached the patrons' home the first season and much discontent prevailed. There was much less milk returned sour last season and less discontent prevailed. After two years' experience it is confidently and generally predicted that within two years more at most every farmer will have a separator of his own and that nothing but cream will go to the creamery, thus altogether dispensing with a large separator at the creamery. Whether this will result as soon as predicted or not it certainly is a fact that the trend of opinion through experience is in that direction, for two reasons. The first is that by separating at home all the milk will be fresh and sweet for the calves and other home use. The second is that it is much cheaper to get the cream gathered than the whole milk. The hauling of milk the first year cost 12c. per 100 lbs. Last year it cost 11c., or about 2½c. per lb. of better manufactured. Whereas the cost of cream by rail was 40c. per 100 lbs. cream, or about 1½c. per lb. of butter. While the farmers who drew their cream by spring rig either drew it individually or two or more took turn or week about. Thus you see that patrons living within say from one to eight miles of the creamery and having their milk hauled, paid twice as much for having their butter manufactured there sending their cream fifty miles by rail. This year the C. P. R. is to carry the cream at a greatly reduced cost, while we have little or no expectation of getting our milk hauled cheaper. Another important advantage that would result from every farmer or every two or more farmers living in close proximity will have by using a separator, is that the Sunday's milk can be separated as well as the week day's milk, but much more important that the milk at home will be separated the whole year round. This will give an average of from 15 to 25 per cent. more butter and all of a much superior quality to that formerly produced by common dairy skimming and a higher price. And further and more important, milk houses and milk pans can be entirely dispensed with when separated at home, whereas by sending the milk to be separated at the creamery the milk houses and pans must be kept intact for the Sunday milk and for the milk before the creamery opens and after it closes. It only remains to be stated that all farmers who draw their cream individually or in turn netted last year a fraction over 15c. per lb. for all the season's make, i. e., over and above all expenses. The farmers and ranchers who sent their cream by rail netted 14c., while the farmers who sent their milk from one to eight miles netted 13c., while the C. P. R. Rate was 40c. per 100 lbs. for 40 miles. This year the C. P. R. rate is reduced to 15c. per 80 lbs. for 40 miles and under, and 20c. per 80 lbs. for 41 to 150 miles.

In addition to this if the old system should be pursued, viz., having cream-

eries every ten miles the capital invested to start with in erecting creameries would be immensely greater than by the new system or plan. The Moose Jaw creamery suffices for a district fifty to sixty miles in width by two hundred miles in length, costing \$3,000.00; whereas by establishing creameries ten miles apart, twenty creameries would be required to cover the ground lengthwise and four tiers of creameries in width, or eighty creameries where one now suffices; thus necessitating an outlay of capital in the one plan of \$3,000, and in the other of \$150,000 to \$240,000, and when you add to this that at the small creameries the cost per pound for manufacturing will be more than at the large creameries, the folly of the advocacy of ten mile creameries must be apparent.

But dropping the lateral tiers of factories altogether, it would take twenty creameries ten miles by fifty miles to supply under the ten mile system the ground occupied and supplied by the Moose Jaw creamery, or from \$50,000 to \$60,000 expenditure of capital where now \$3,000 suffices. But it will be said that the smaller creameries would cost less. True, and I have made allowance for that in putting the cost at from \$50,000 to \$60,000, or a margin of \$10,000 to go and come by. The \$50,000 for the smaller creameries includes cold storage and an ice house. Without these two essential requisites in every creamery the result would be in the future as it was this year all over Manitoba and the Territories, where they were minus these requisites. The patrons netted under 10c. per lb. for butter, or more than a third less than the price realized by the Moose Jaw creamery patrons.

Can there be any further doubt as to which scheme or system is best adapted to the North-West? Surely not.

Two important points remain to be stated viz., the additional cost of hand separators, and the future wants of the Territories, when the twenty-nine creameries and factories will all suffice to meet the increased population.

As to the last, provision is made in the scheme to meet it, as while it is only contemplated to spend the \$3,000 by the N. W. Executive in three years, which will be about as fast as the districts can be properly organized. The grant from the Dominion Immigration Fund to the N. W. Executive will be yearly and perpetual, and thus suffice to meet the future needs of the Territories as population increases.

The first point, viz., the additional cost of hand separators, is very important and not so easily answered at first sight. For the cost is a very large item and should not be too hastily incurred. Hand separators range in price from \$50, the smallest, No. 12, to \$130 on the largest, No. 7. From this it is plain that about \$7 would be the average reduction in price, if all the duty were thrown off, on hand separators. The largest hand separator being too heavy for power, causing a great deal of loss for the middle and smaller ones. The price is too high and all concede that this must mainly rise from the patent rights and dealer's profits. How to overcome this I will at present leave others to answer, only remarking that I fear we are looking for a very large reduction in the near future, or until manufacturers of separators increase. As an off-set for the extra cost of separators we have the much less cost of hauling the cream either by rail or by wagon and the great change, almost a revolution, which it will effect in the household work. Our women will be relieved of washing, scalding and airing the milk pans, also the setting, skimming, churning, cleaning, salting, packing and selling of butter, save in the winter months. As to the 15 to 25 per cent. additional butter realized through the centrifugal cream separating process and the higher price paid which from past experience we may safely put at from 5 to 9 cents per pound. (The Moose Jaw creamery realized last year from 7 to 9 cents more than the farmers' butter.) And that at least double the number of cows can be handled under the new system. You have a large counterbalancing off-set, an off-set that will pay and more than pay for the extra cost that must be incurred in paying to the centrifugal cream separating process. But when in addition to this it is considered that cash will be paid for all creamery butter that trading will cease all over the Territories where creameries exist, and that from that cause alone from 20 to 30 per cent. will be saved on all goods bought, as merchants can afford, and are at present doing in Moose Jaw, when only a cash account has to be kept and no bad debts incurred. The pressing necessity for prompt action and courageous action by the North-West Executive, by the North-West Association and by the settlers in general in introducing and permanently establishing the creamery scheme, must be plain and proven beyond a peradventure. (Once established, times will improve, money will be more plentiful as cash cheques will be distributed all over every month of the summer and fall, living will be cheaper, our purchasing power greatly increased, less time, labor and capital will be wasted raising No. 1 extra corn, and more in beef, better, cheaper and eggs. Industrious habits will be promoted, families will be better brought up, work will be spread over the whole year instead of as at present being largely confined to the summer months, greater contentment with our lot will follow, and a large increase in population, through immigration, will be assured. And last, but not least, freight rates, now such an incumbrance and burning question, will be made less burdensome, and solved in fact at least, as attention to the following facts will show:—Grain being or chief export, freight rates are in round numbers, as follows:—From Moose Jaw to Montreal, car wheat 65¢ bushels at 40 cents per bushel, \$265.80: Freight to Montreal about \$200 or 75 per cent. of its value. Car lot oats, 1175 bushels at 15 cents per bushel, \$175. Freight to Montreal \$200 or 25 per cent. above its value. Car lot of cattle, freight from 30 to 25 per cent. of value. Car lot of cheese, freight from 12 to 14 per cent. of value. Car lot butter, freight 6 per cent. of value. Car wheat brings \$370, car oats \$175, car cheese \$3000, car butter \$6000. Here is food for reflection. Wm. Watson.

eries every ten miles the capital invested to start with in erecting creameries would be immensely greater than by the new system or plan. The Moose Jaw creamery suffices for a district fifty to sixty miles in width by two hundred miles in length, costing \$3,000.00; whereas by establishing creameries ten miles apart, twenty creameries would be required to cover the ground lengthwise and four tiers of creameries in width, or eighty creameries where one now suffices; thus necessitating an outlay of capital in the one plan of \$3,000, and in the other of \$150,000 to \$240,000, and when you add to this that at the small creameries the cost per pound for manufacturing will be more than at the large creameries, the folly of the advocacy of ten mile creameries must be apparent.

To the Public Generally:

We thank you for your liberal patronage in the past and while fully realizing the changed conditions, our interests are largely mutual, and we are more determined than ever to hold our ground against all competitors. OUR MOTTO WOULD BE: "Stay by those who stayed by you and the district."

To the FARMERS:

BLUESTONE! No danger of shortage this spring. We have a large quantity bought of the analysed, pure, unadulterated article. Price away down low.

To the Dairymen:

We are local agents for Western Assiniboia for the celebrated Alexandra Separators, and can sell them as low as they can be bought in the Dominion. See those now on exhibition in our window. All dairy requisites such as cream and milk delivery cans, churns, pails, thermometers, separator oil, &c., in stock. All our other lines complete and at rock bottom prices.

SEED GRAINS. SEED GRAINS. E. A. Baker & Co.

Spring Sale

CUT PRICES.

Never before have we been in a position to place on sale such extraordinary values in high class goods as at present. A look through our immense stock and at our prices will interest you, whether you buy or not. Here are a few of the many bargains we offer:

Boots and Shoes—Men's black harvest balm, hand riveted, solid leather inside, at \$1.25; men's kip blucher, hand made, at \$1.75; men's fine laced balm or congress at \$1.75. Ladies Oxford patent tip at \$1.00; ladies Dongola kid Oxford tip at \$1.50; ladies' buttoned boots, patent tip, at \$1.25; Ladies' Dongola buttoned, patent tip, at \$1.65; boys', misses' and children's boots and shoes as low in proportion.

Men's, Boys', and Children's Clothing—We pride ourselves on the provision we have made in this line and have already won a reputation far and wide for quality, style and perfect fitting. We are starting men's tweed suits at \$4.00. Excellent values in men's tweed and worsted suits at \$6.00, \$7.00, \$8.00, \$9.00 and \$10.00, that cannot be duplicated. Children's fancy tweed suits neatly made up and lined throughout at \$1.90, \$2.00, \$2.25, \$2.50, and up to \$5.00.

Hats and Caps for men, boys, and children, in all the latest styles and colors. We are showing splendid values in men's felt hats at 50 cents, 75 cents and \$1.00. All we ask is the opportunity to show you that we have the right goods at right prices.

I have made a number of hand-drills, containing six bits; prices away down.

A call solicited, when my workmanship will speak for itself.

Forge, River Street, West, (Near Brunswick Hotel.)

WANTED!

First class girl at ABERDEEN HOUSE, Moose Jaw.

NOTICE.

I will run a herd of horses and cattle at Springbrook Ranch, eighteen miles south and two miles from the Wood Mountain trail, during the season of 1896. Two stallions will be kept at the ranch for service, and also a bull will run with the cattle. W. M. HARRIS, Moose Jaw. 45

Help Wanted—Female!

WORK FOR MEN AND WOMEN. We pay \$6 to \$10 per week for easy home work. Child can do it. No Scheme. Books or Peddling. This is bona fide. Send stamp for work and particulars at once. THE SEYMOUR SUPPLY CO., Masonic Temple, Camden, N. J. 45-ly

PICNIC!

A picnic will be held (called the Ranchers' Picnic) at the home of Mr. M. T. Bambridge, six miles southwest of Moose Jaw, on Monday, the 25th day of May. Every effort will be put forth to make this the picnic of the season. Swings and games will be taken from Moose Jaw, and if possible the brass band will be there. A general invitation is extended to everybody. Bring your basket. 45-48.
